

NJROTC

(NAVY'S JUNIOR RESERVE OFFICERS TRAINING CORPS)
DEPARTMENT OF NAVAL SCIENCE

"Naval Science" is the curriculum title for the Navy's Junior Reserve Officer Training Corps (NJROTC) Program. It emphasizes citizenship and leadership development, maritime heritage, the significance of sea power, naval operations, seamanship, navigation and meteorology. Classroom instruction is augmented throughout the year by community service activities, drill competition, field meets, visits to naval activities, marksmanship training, and other military training. Uniforms and text books are provided by the Navy. **Students enrolled in NJROTC will meet the physical education/health graduation requirement while participating in this program.**

RO1(F) AND RO2(S) NAVAL SCIENCE IA & IB

Credit : 6

Grade Offered: 9 10 11 12

Length of Course: 1 year

Prerequisite: None

To introduce students to the meaning of citizenship, the elements of leadership, and the value of scholarship in attaining life goals; engender a sound appreciation for the heritage and traditions of America, with recognition that the historically significant role of sea power will be important in America's future; develop in each cadet a growing sense of pride in his/her organization, associates, and self. These elements are pursued at the fundamental level.

RO3(F) AND RO4(S) NAVAL SCIENCE IIA & IIB

Credit: 6

Grade Offered: 10 11 12

Length of Course: 1 year

Prerequisite: Naval Science I

Build on the general introduction provided in Naval Science I, to further develop the traits of citizenship and leadership in cadets, introduce cadets to technical areas of naval science, and engender a deeper awareness of the vital importance of the world oceans to the continued well-being of the United States.

RO5(F) AND RO6(S) NAVAL SCIENCE IIIA & IIIB

Credit: 6

Grade Offered: 11 12

Length of Course: 1 year

Prerequisite: Naval Science I & II with a "C" or better and approval of instructor

Broaden the understanding of students in the operative principles of military leadership, the concept and significance of teamwork, the intrinsic value of good order and discipline in the accomplishment of objectives, the fundamentals of American democracy, and to expand their understanding of naval academic subjects.

RO7(F) AND RO8(S) NAVAL SCIENCE IVA & IVB

Credit: 6

Grade Offered: 12

Length of Course: 1 year

Prerequisite: Naval Science I, II & III with a "C" or better and approval of instructor

This course is focused solely on practical leadership. The intent is to assist the senior in understanding leadership and improving their leadership skills by putting them in positions of leadership, under supervision, then helping them analyze the reasons for their varying degrees of success through the year. Classroom activities include seminars, reading assignments, classroom presentations, and practical work with younger cadets.
